I am Prof. Ass. Dr. Alba DUMI full time staff at the Faculty of Business Administration, in TBU. I am a lecturer of subjects: "Small and Medium Business Management", "Managerial Skills", "Advanced Strategic Management / Advanced Strategic Management in Financial Institutions", "Business Management", Advanced Organizational Behavior, Leadership.

I have long experience in university work, and I have contributed to various universities both internally and abroad as a lecturer. I graduated from the University of Tirana in 2005. I graduated from the postgraduate school at the Faculty of Economics at the University of Tirana. I graduated from "Postgraduate Qualification" at the Bologna University in, Italy in 2005.

I hold the "Doctor" degree in economics from 2009, I was awarded the "Associate Doctor Professor" academic title in 2011, and I'm currently undergoing the academic title "Professor". I am invited professor at South East European University, SEEU Macedonia, and lecturer in several foreign Universities. I am a member of several international scientific boards such as, "La Sapienza" Rome Italy, David Publishing Company, Illinois USA. Massey University, New Zealand. Monte Croatia etc

I want to be part of this project, because I want to make my contribution in TBU more qualitative. Trained in your University with the best teaching methods is very important to me, by improving the assessment method and the syllabus of the courses, which I work with the students. This is what I want to accomplish by lecturing the professors in the field of management. I want to see how they design and implement programs, case study, exams in class. I want to improve the method of explanation in the auditorium, which I want to accomplish by establishing with them links and academic collaboration. I would like to use the literature that is used by your university, using your library. This will serve to a more qualitative standard of my work in TBU, to the benefit of TBU students.

Thank you!

Best wishes : Prof Alba DUMI
